

CORTELYOU HAS FORMED A PLAN

Would Relieve Present Stringency By Accepting Other Bonds That Are Offered.

IT IS ACCORDING TO RECENT PLAN

Philippine, City Of Manila, Porto Rican, District Of Columbia, State, Railroad And Others At Ninety Per Cent Value.

[BY ASSOCIATED PRESS.]
Washington, D. C., March 25.—Secretary of the Treasury Cortelyou has just made an announcement which will materially aid the congested condition of the money market and still not play the government funds into the hands of the Wall Street crowd. The idea is to accept a substitution for the United States four per cent bonds of 1907, now held to secure public deposits, and other government bonds, Philippine bonds, Porto Rican bonds, District of Columbia bonds, at par; Hawaiian bonds at 90 per cent.
Also state, municipal and high grade railroad bonds, such as are legal investments for savings banks, in the state of New York and Massachusetts, on the basis of 90 per cent their market value.
It is understood any such bonds thus withdrawn must be assigned to the secretary for redemption under the provisions of the department circular March 14, 1907.

NATIONAL BOWLERS AT ATLANTA CITY

Seven Thousand Dollars Will Be Distributed Among Winners in Seashore Tourney.

[SPECIAL TO THE GAZETTE.]
Atlantic City, N. J., March 25.—The first tournament of the National Bowling association, which was organized last year as a result of the failure of Philadelphia to obtain the meeting of the American Bowling Congress, opened in Atlantic City today and will continue two weeks. The membership of the association comprises nearly all of the eastern cities formerly allied with the American Bowling Congress. The entry list for the tournament is made up of 120 fifteen teams, 200 two-men teams and 487 individuals. The cities represented include New Haven, Reading, Rochester, Philadelphia, New York, Baltimore, Washington, Paterson, Wilmington, Pittsburgh, Harrisburg, Elizabeth, Newark, Jersey City. Several cities beyond the eastern territory have sent representatives to the tournament, among them Chicago, Cincinnati, Cleveland and Louisville.
The prize money for which the teams and individuals are to contest aggregates nearly \$7,000. Of this sum, \$2,550 will go to the winning fifteen-men teams, \$2,210 to the successful two-men teams, and \$2,060.75 to the winning individuals. The money will be divided on a percentage plan. In the big team class the five winning teams will receive \$255, the second will receive \$220.50, and the others in proportion. The same method will hold good in the doubles and the singles. The first two-men prize will be \$176.50, or 8 per cent, while the best individual total will be awarded \$134.52. This arrangement spreads out the prize money, and it is believed will lead to a more satisfactory distribution by preventing the few leading teams or men from capturing the bulk of the money.

The Amalgamated company offers to pay \$4 a day with the stipulation that the union enter into a contract for five years and that such wages be paid only so long as copper is above 13 cents a pound, should the price drop below that point the wage scale of \$3.50 a day to be restored.

SOUTH MAY OPPOSE ISTHMIAN WATERWAY

Fear of Discrimination at Hands of Transportation Company May Lead to Action.

[SPECIAL TO THE GAZETTE.]
New Orleans, La., March 25.—Pursuant to a call issued by the New Orleans Progressive Union delegates from the various southern states, particularly those bordering on the gulf, gathered in this city today to consider the Panama canal situation and the south's interest in the future trade to be developed by the opening of the canal. Those responsible for the conference openly express their fear that the south will be discriminated against by the big steamship and railroad companies when a readjustment of traffic conditions takes place as a result of the opening of the isthmiian waterway. They hope to persuade the Panama-railroad company, whose steamship service now runs out of New York, divide its service so that some of the ships touch at gulf ports so that Mobile, New Orleans, Galveston and other cities of the south may receive the benefits of any additional canal trade thus secured.

Tennessee Builders Organize
Memphis, Tenn., March 25.—A conference was begun here today having for its object the organization of a state association of builders' exchanges of Tennessee, on the lines of similar bodies existing in Texas and other states. MANY STATES REPRESENTED AT NATIONAL GUARD MEET

Association's Purpose Is To Better Conditions Of Militia And More Closely Unite State Organizations.

[SPECIAL TO THE GAZETTE.]
Columbia, S. C., March 25.—The Interstate National Guard association, which has for its objects the betterment of the militia throughout the United States and the unification of the several organizations of state forces, began its annual convention in this city today. Officers of the several branches of the military service of the United States, the military attaches of several of the foreign legations at Washington and the adjutant-generals and other representatives of the national guard of nearly every state of the union were present when the convention was formally called to order by the president of the association, Senator Charles Dick of Ohio, the author of the law now governing the military organizations of the various states.
In addition to President Dick the other officers of the association on hand were Gen. Armfield of North Carolina, vice president; Col. Carroll D. Evans of Nebraska, secretary; Gen. John D. Frost of South Carolina, treasurer, and Gen. James A. Drain of the state of Washington, chairman of the executive committee.
The program of the convention covers two days and provides for papers and discussions covering a wide variety of topics connected with the state militia. Among those who will address the gathering are a number of officers of the United States army, specially detailed for the purpose. Major Millard F. Waltz, of the general staff, will read a paper on the subject of the educational system for officers of the regular army. Major Charles McK. Saltzman of the signal corps will deliver a lecture before the convention on the subject of "The Signal Corps in Campaign." Col. Henry O. S. Helstead, military secretary, will read a paper on the subject, "The Military Secretary's Department as a Factor in Military Training and Its Value to the Nation." Col. Valery Hayward, assistant surgeon general of the army, will also be among the speakers.
Prominent among the National Guard representatives who are scheduled for papers or addresses are Gen. Joseph Bobleter of Minnesota, Gen. Thomas R. Robertson, adjutant-general of North Carolina, Adjutant-General Boyd of South Carolina, and Adjutant-General Critchfield of Ohio, who is vice-president of the National Board of Rifle Practice.
The state of South Carolina and the City of Columbia have made elaborate arrangements for the entertainment of the many distinguished visitors. An official reception and a banquet are among the features of the entertainment program.

WASHINGTON IS WAITING RESULTS

CITY IS WAITING RESULTS OF
STATEMENTS.
MR. SPOONER'S RESIGNATION
Loss of Wisconsin Statesman Is Most
Keenly Felt by
Officials.

[SPECIAL TO THE GAZETTE.]
Washington, D. C., March 23.—So
eager and spontaneous is the chorus
of denials that President Roosevelt
is seeking to capture the next presi-
dential nomination for the secretary
of war that the suspicion is aroused
that there is considerably more to
the matter than really appears on
the surface. Following the interview
with Governor Deneen, Secretary Loeb
gave out a flat denial of the story
published that the governor of Illi-
nois was called here to discuss the
railroad situation and was surprised
to find himself a party to a discus-
sion of Secretary Taft's fitness for
the nomination in 1908. Secretary
Loeb scarcely had handed out his
typewritten denial before Secretary
Root made a public statement that
his dropping into the White House
during the conference between Presi-
dent Roosevelt and Governor Deneen
really had no political significance,
and that politics was not discussed.
As a matter of fact it is extremely
doubtful whether President Roosevelt
will be able to exert his large influ-
ence, as is popularly supposed, in
nominating the head of the next na-
tional ticket. In the east and mid-
dle-west the states are so badly torn
by internal dissension that little at-
tention will be paid to Mr. Roose-
velt's big stick policy. In the west
and on the Pacific slope there never
has existed such political independ-
ence and it is likely that any inter-
ference on the part of the President
in the selection of the candidate will
lead to open political revolt. Presi-
dent Roosevelt is nothing if not a po-
litician and it is said he realizes this
condition of affairs. He scarcely
would dare to place his seal of ap-
proval on Secretary Taft, when the
portly secretary of war scarcely can
hope to enter the convention at the
head of a solid delegation from his
own state. While he will have the
powerful assistance of Congressman
Burton, who has a powerful follow-
ing in Ohio, he is being fought open-
ly by both Senators Foraker and Dick.

"Uncle Joe" Cannon will have to be
reckoned with if the President is go-
ing to pick his successor. The Speaker
of the house can make it decidedly
unfavorable for Mr. Roosevelt if he

A Voice From The Stomach

A Bloodless Fight Between a Ta-
blet and a Habit—The
Tablet Wins.

At the age of 22, Clarence had good
digestion. He had gastric juice that
could dissolve doughnuts and turn
apple-skins into good blood corpuscles.
At the age of 24 he began to be pro-
fuse about the waist and lean back-
wards. He also began to cultivate
"several chins." In his new-found pride
he began to think it his duty to gorge
himself on everything, tho good and
the bad, for appetite feeds on appetite
and every good thing is abused.
His mother showed that he took on
weight after he put his collar on.
At the age of 26 Clarence married
and went to boarding. On top of all
this, he attended oyster suppers and
wine dinners, which reduced the size
of his collar from 16 1/2 to 15. With
still abiding faith in the strength of
his stomach he gulped his meals, and
chewed them afterwards.
At the age of 28 Clarence began to
hear an inward voice—a warning
from the stomach. After each meal,
he would feel bloated and belching
became a habit.
He began to be a light eater—and
a heavy thinker. He tried to think
out a cure, for now he would sit down
at his meals absolutely distressed at
the thought or sight of anything to
eat.

He would sit down at his meals
without the trace of an appetite, just
because it was time to eat.
He would often feel a gnawing,
unsatisfied "still-hungry" feeling in
his stomach, even after he was
through eating, whether his meal was
well cooked or not.
And he suffered a good many other
things with his stomach that he could
not explain, but that made him
grouchy, miserable, out-of-sorts and
generally sour on everybody and
everything.

Finally he read an account, some-
thing like this, about the truly won-
derful results obtained from Stuart's
Dyspepsia Tablets in all cases of
stomach trouble, dyspepsia, and so on.
He bought a 50c box at the drug
store, and took the whole box. When
he started, he had little faith—and less
appetite. When he finished he had
absolute faith—and more appetite, and
more good cheer. Things began to
taste different and better to him.
Now he has no more dyspepsia, no
more indigestion, no more loss of ap-
petite, brash, irritation, burning sen-
sation, heartburn, nausea, eructations,
bad memory, or loss of vim and vigor.
Remember, one ingredient of Stuart's
Dyspepsia Tablets will digest for
you 300,000 grains of food, just as it
did for Clarence.

This relieves your stomach of the
work of digesting until your stomach
can get strong and healthy again.
Your stomach has been overworked
and abused. It's fagged out. It needs
a rest.

Let Stuart's Dyspepsia Tablets do
the work of your stomach. You will
be surprised how fine you'll feel af-
ter eating, and how jocosely good
everything will taste to you.

Send the call of the stomach now!
There's a world of good cheer in one
box of Stuart's Dyspepsia Tablets,—

so desires, and he probably would
elect to do so did the President un-
derstand to thwart his presidential am-
bitions. From stories that have
come from the West Indies, "Uncle
Joe" has been leading a butterfly life
on his trip to Porto Rico and the
isthmus. He is said to have kept to
the deck when all the other members
of the congressional party were sick
and to have put to blame members
of the younger men at the dances
given on the steamer. The party is
headed homeward and the members
are declared to have been delighted
with their inspection. The speaker's
Washington home is closed, Miss Hel-
A. Cannon, who is the head of the
establishment, having gone to the
Homestead hotel at Hot Springs, Va.
"Uncle Joe" will join them there, af-
ter which they will go to their home in
Danville, Ill. It is probable that the
speaker will not let grass grow be-
neath his feet once he actually gets
into the field, and his political activi-
ty undoubtedly will be great during
the present summer.

The passing from public life of Sen-
ator Spooner probably has caused
more genuine regret than has been
created by any resignation for years
back. Peculiarly enough one of those
who feels his going most is the fiery
Ben Tillman of South Carolina. De-
spite the fierce oratorical duels the
two have had upon the floor, it is
doubtful if there were any two friends
closer than were the senator from
Wisconsin and the senator from
South Carolina. All that was needed
at any time to settle the matter was
for Spooner to give Tillman or Tillman
to perform the same office for
Spooner. The senate could then sit
back in its seat and watch the fur-
ly. Senator Spooner's resignation
has had one salutary effect: it has
shown up the "muckrakers." Held up
to scorn as a corporation hireling,
who had fattened in office at the ex-
pense of the people, it is shown con-
clusively that the Wisconsin states-
man in reality is a poor man and that
during the sixteen years of service in
the senate he has been compelled to
turn away his fees more than a quar-
ter of a million dollars. These fees
represented cases which as a senator
he felt he could not undertake. If
any answer were needed to the vic-
ious attacks of the "muckrakers,"
the magnificent tribute paid by Presi-
dent Roosevelt is all-sufficient!

By his appointment of the inland
waterways commission, President
Roosevelt has given a wonderful im-
petus to the national policy of water
ways improvement. His action, in
fact, is epochal, for it practically com-
mits the federal government to a vig-
orous campaign in widening and
deepening the great streams of the
country. This will be of the great-
est importance to the middle-west,
which possesses a system of rivers
that is unsurpassed by any other ter-
ritory of its size in the world. There
is no doubt that this commission will
hasten the construction of canals
that eventually will connect the Great
Lakes and the gulf and which will
make the great Mississippi and Ohio
valleys practically independent of the
railroads. In his letter to each of
the eight members of the commis-
sion Mr. Roosevelt declared that the
present congestion is due to the fact
that products of the northern interior
states in ten years have grown eight
times as rapidly as the transporta-
tion systems. "There appears to be
but one complete remedy—the devel-
opment of a complementary system
of transportation by water," he says.
This is a fact that the National Riv-
ers & Harbors congress has been im-
pressing upon the country for the last
four years, it is due to the work of
that organization that the last con-
gress framed the greatest approval
bill for rivers and harbors ever
passed in this country. The measure,
while it carried upward of \$7,000,000,
000, appropriates only a little more
than \$27,000,000 in cash. The Na-
tional Rivers & Harbors congress has
contended that not less than \$50,000,000
a year should be invested by the
government in developing the
streams and deep sea ports. It will
continue to advocate the appropri-
ation of this sum, and to this end
its demands carry more weight it
is seeking to add to its membership.
Capt. Ellison has made a strong ap-
peal to the country at large to join
in the work, drawing attention to the
fact that the membership fees are ex-
tremely low.

A small bronze bust of Admiral
Lord Nelson, the hero of Trafalgar,
has been presented by King Edward
to the United States navy, and it is
now installed in the naval academy
at Annapolis. The bust is of solid
copper made from one of the guns of
the Victory, Admiral Nelson's flag-
ship, on which he met his death. The
base is a six-inch strip of oak from
the woodwork of the ship, and it
shows the screw holes, and battle
scars. A pretty ceremony will take
place shortly when two silken flags,
the handiwork of Mrs. Roosevelt and
Queen Alexandra, will be placed above
the bust. The queen already has com-
pleted her needlework on the union
jack and Mrs. Roosevelt's soon as
Archie's illness permits, will be
sent work on the stars and stripes.
Mrs. Roosevelt probably will make
the presentation in person, while
Mrs. Brice, wife of the new ambas-
sador, will represent the queen.

With the passing of the Fifty-ninth
congress went the last but one main-
ed veterans of the Civil war, who
have served in the national legisla-
ture. Representative Roswell P. Bis-
hop of Michigan, who wore an empty
sleeve as the result of service in the
Union army, has followed into re-
tirement Senator Henry of Arkansas,
who lost a leg while fighting for the
Confederacy. The only mained veter-
an now is Senator Daniel of Vir-
ginia, whose right leg was badly
shattered by Union bullets. Senator
Daniel walks with the aid of a crutch.

ROLLER-SKATING SEASON

the West Side rink taking its last
whirl at the pastime. The Gray &
Carter orchestra which has discov-
ered such excellent music throughout
the season, was at its best and the
good time continued until a late hour.

The rink will be opened as a vaude-

MANY FROM HERE SAW JANESVILLE BEAT BELVIDERE

Special Car Took Sixty-three to Beloit
Saturday Evening—Final
Score 41 and 40.

One of the best games in the history
of Janesville Y. M. C. A. basket-
ball was played with the Belvidere
Association team at Beloit Saturday
evening. The locals nosed out a vic-
tory by the close score of 41 and 40
and thereby captured honors in the
series of three games. At the end
of the first half the score stood:
Janesville, 28; Belvidere, 20. Seven
minutes before the end of the game
the Bower City lads were nine points
ahead of their opponents, but became
overconfident and repeatedly fouled.
As a result Belvidere was given seven
free throws, five of which resulted in
baskets and three gifts, closing
Janesville's margin to one point. Just
as the referee's whistle called time
the ball left the hands of Bruce Kline
and lodged safely in the Janesville
basket, but was not counted as a score.

The game was contested in Beloit
in order that it might be on a neu-
tral floor, both sides having won on
their home floors. J. L. Rogers, Presi-
dential director of the Freeport Y. M. C. A.,
refereed and gave satisfaction. Sixty-three
people went from here for the game,
making the trip on a special car
over the Interurban. The ex-
penses of the game were large,
but were covered by the gate receipts,
the attendance being very large.
The Janesville team consisted of:
Forwards, Bruce Kline and Leonard
Mathews; center, Roy Palmer;
guards, George Sennott and Will
Langdon and Fred Wilkerson.

STUDENTS' SPECIAL IN HEAD-ON CRASH

Five Janesville Boys in Wreck on
Michigan Central—No One Seri-
ously Injured.

While crossing the state of Indiana
Friday night the eighty-five Wiscon-
sin university engineering students,
including the five Janesville boys,
who passed through here Friday
morning on a trip to Niagara Falls,
were in a wreck but all escaped un-
scathed. The party occupied special
coaches attached to Michigan Cen-
tral train number fourteen when it
ran into an open switch and collided
with a sidetracked freight train. Sev-
eral of the students were thrown
from their berths but none received
an injury more serious than a slight
bruise and many did not realize that
a collision had occurred. The Janes-
ville boys aboard were Victor Ander-
son, Roger Wiggins, Will Ryan, Ed-
ward Palmer and Michael Hayes.

"RAILS" SMILE AT RUMORS OF STRIKE

Believe Demands of Trainmen Will
Be Granted by Fifty-one
Companies.

Chicago morning papers of today
announced that a strike of trainmen
on fifty-one western railways was im-
minent and it was hinted that unless
all the demands of the workmen were
granted every road would soon be
tied up. Such reports were based on
the fact that the 47,000 members of
the Brotherhood of Railway Train-
men and Order of Railway Conduc-
tors recently voted on the proposi-
tion and it was predicted that when
the votes were counted today ninety-
five per cent would be in favor of a
strike. Janesville trainmen, when
approached today, smiled at the
strike talk believing that the com-
panies would not and could not per-
mit a "walkout," the demands being
generally considered reasonable.

BOTTLING WORKS MAY BE ERECTED

ON THE BURR PROPERTY UP THE
RIVER.

BY HIAWATHA SPRINGS CO.

Nothing in the Way of a Sanitarium
Is Projected—Large Audi-
torium Planned.

On Saturday last Louis N. Parks
of Minneapolis, who with A. Y. Mer-
vill of the same city and Thos. S.
Nolan of this city are the proprie-
tors of the Hiawatha Springs Com-
pany, visited Janesville with plans
for a proposed bottling works to be
erected some time in the future on
the property leased by the company
from Mrs. Burr up the river. The
fact that he was accompanied by sev-
eral gentlemen to the property and
that ground was measured off for a
large structure led to the report that
a sanitarium was to be erected. The
plan for a large bottling works has
been under discussion by the gentle-
men owning the Hiawatha Springs
Co. for some time and as yet nothing
really definite has been done.

The plan projected by the com-
pany are for a large bottling works,
the buildings to be in the neighbor-
hood of three hundred by sixty feet
in dimension, two or three stories
high, surmounted by a slightly tower
or pagoda effect. Part of the inter-
ior would be finished off in persian
marble for an auditorium where a
large convention could be held. Ginger
ale, soda and other soft drinks
would be manufactured and bottled
on the premises as well as the bot-
tling of the Hiawatha Springs water
for which the demand is now greatly
on the increase. The idea is to make
a superior grade of soda and ginger
ale similar to the brands now im-
ported for high class trade.

Olive Oil Department

It is also talked that the Louis N.
Parks Company of Minneapolis, one
of the largest olive oil importing
firms in the United States, would use
a portion of the building, for the bot-
tling of their oils. At present these
oils are brought in bulk to this coun-
try and bottled in New York. Mr.
Parks has been considering remov-
ing this factory to the west and
should the proposed building be erect-
ed up the river, this department
would doubtless be added.

Line of Interurban
The proposed bottling works would
be on the line of the proposed Mad-
ison-Janesville interurban and upon
its construction largely depends the
erection of the proposed building.
However, it is possible that the
North-Western road will also run a
sidetrack to the factory and this is
known to be under consideration at
the present time.

Large Force
When completed the proposed bot-
tling works would employ a hundred
men or so and it would mean a large
increase in business to the city.
Janesville would receive an untold
amount of advertising through the
distribution of the goods and it would
be the means of bringing other in-
dustries to the city.

NOTHING DEFINITE AS TO THE YARDS

No Orders Known to Have Been Is-
sued to Begin Construction
South of the City.

Beyond the fact that the North-
Western road has refused to make
any contracts for rent lot the land
south of the city which they purchas-
ed a year ago with the intention of
building assorting yards, nothing defi-
nite appears to be known relative to
the construction of the proposed
yards. That blue prints of the pro-
posed work have been completed
within the past sixty days and that
members of the engineering corps
have visited Janesville and looked
over the ground is known, but beyond
these facts the officials outside of
the President's office know nothing
relative to the project. The Janes-
ville Water Company have made a
proposition to the North-Western
road to extend their water mains from
their present limits to the site of the
proposed yards, but nothing definite
has been done on the part of the road
as yet. It is thought that the yards
if built will have a forty or forty-
eight stall engine-house and machine
shop; equipment suitable to handling
the business and accommodations
for fully three thousand cars. It
would do away with the Harvard
turn-around and help the transfer
work at the present congested For-
teth Street yards. Chicago, to Janes-
ville, it would mean the addition of
a force of three hundred men, many of
whom are married and would build
up the southern section of the city in
a wonderful manner.

Homes in the Northwest.

Why not settle on the government
lands, or low price, farm lands that
are improved, in South Dakota, thus
staying near at hand instead of jour-
neying to a distant region where the
climatic conditions and social sur-
roundings are widely different? Spe-
cial low rates are in effect the first
and third Dakota stations on the North-
Western line. It will pay you to in-
vestigate. New lines are opening up
extensive territory to development,
creating the chance of a lifetime. Ask
your ticket agent to give you full par-
ticulars, with maps, pamphlets, and
complete information regarding rail-
road rates and the steps necessary to
secure government land free.

A QUESTION

When Eating an Orange Why Do
You Throw the Skin Away?

You immediately answer, "because
the skin is indigestible, unpalatable,
useless."

This delicious and nutritious fruit
has a parallel in cod liver oil. Over
fifty medicinal alkaloids or curative
elements are to be found in the cod's
liver, and for centuries people have
been swallowing the mucus; indiges-
tible, nauseating oil, either in its raw
form or in an emulsion, to get the
benefit of these medicinal elements.
Now it has been proven by two celeb-
rated chemists that the oil which en-
velopes the curative properties found
in the cod's liver is just as useless
as the skin of an orange, and have dis-
covered a way to separate all of these
medicinal elements from the oil, re-
taining all that is good and eliminat-
ing the bad, and thus make Vinol.

This will explain what a valuable
medicine Vinol is, and why it is super-
seeding old-fashioned cod liver oil and
emulsions, and why it has been so suc-
cessful in curing stomach troubles,
giving strength and renewed vitality
to the weak, run-down and aged, and
curing chronic coughs, colds, and
building up the convalescent, and it is
because we know so well of what
Vinol is made that we unhesitatingly
offer to return money in every case
where it fails. Smith's Drug Co.

Hypnotism and "The Clansman" There has been widespread newspaper discussion of whence Thomas Dixon, Jr., got his idea in the third act of "The Clansman" of extorting a confession from a negro by the spell of hypnotism. A New York critic made the unwarranted statement that this famous scene was a copy of the confession of Mathias in Sir Henry Irving's "The Bells." Mr. Dixon replied that he was not familiar with the scene in question, but that the circumstances of the Gabrielle Bonaparte murder case a few years ago suggested the scene to him. Since this statement several persons have come forward with stories from real life of the use of hypnotism in extorting confessions. In France the exercise of hypnotic influence is a recognized feature of legal and medical proceedings. In America the incident in "The Clansman" is paralleled in a wonderful manner by the method used by Wilbur M. Bates a few years ago in obtaining a confession from one of the negroes who murdered Dr. J. Higbie Hill at Millington, Md. Mr. Bates, now general press representative for Klaw & Erlanger, was a reporter on a Philadelphia paper at the time. "The Clansman" will be seen here at Myers theatre March 30, matinee and night.

Chicago's newest theatre, the Whitney opera-house, will be opened next Saturday night, March 30th. The event will be a notable one, as it will mean the entrance into Chicago of one of the country's best known producers, Bert C. Whitney. The Whitney opera-house is located on Van Buren street, between Washington and Michigan avenues, and was formerly the New theatre, the home of the endowed dramas. When the art, it is called, Mr. Whitney slipped into Chicago and leased the play-

house. He has made of it the handsomest theatre in Chicago, with a big seating capacity, an ample stage and every convenience to be found in an up-to-date playhouse.

The opening attraction is to be "A Knight for a Day," a new musical comedy—the work of Robert B. Smith and Raymond Hubbel, the author and composer of "Pantana" and "Mexicana." Mr. Whitney has gathered together a musical stock company which is second to none in the country. Its leading members are John Slavin, the well known comedian lately seen with "Mme. Schumann-Heink in 'Love's Lottery' and in 'His Honor the Mayor'; Mabel Hite, the eccentric comedienne, who was the hit of the "Girl and the Bandit"; Gilbert Gregory, who will be remembered for his excellent work in "The Tenderfoot" with Richard Carle and his connection with Joe Weber; Alice Yorkie, the soubrette prima donna lately with "The Isle of Spice"; "The Isle of Bong Bong" and "Captain Careless"; Lenora Kerwin, who was the star of the famous Tivoli company at San Francisco for years; Harry Lane, Jack Henderson, Mayme Taylor, Frank Hayes and Edward Beck. Heri Gus Schlicht, known as one of the most original and efficient stage directors in the country, has put on the production, itself a guarantee of success. "The American Beauty" chorus, which Mr. Whitney has gathered is said to contain the most beautiful girls ever seen in an operatic organization; the "Kate Kittens," as the dancing chorus is known, is claimed to be the most agile and nimble ever seen in Chicago. The production is a most notable one, all the costumes having been made by a leading Chicago firm. There are over seventy people in the company, and Mr. Whitney has made every effort to make his production one of the best of the season.

Important Meeting.

There will be a meeting of the citizens of Janesville, in the council rooms, tonight, Monday evening, at seven o'clock, to consider the propriety of changing the site of the capitol from Madison to Milwaukee.

Many Citizens.

Removing the Capitol.

Considerable agitation has been produced by the introduction of a bill into the Senate, by Mr. Webb, of Wausara, providing for a vote being taken on the question of removing the seat of government from Madison to Milwaukee. According to the provisions of the bill, the citizens of Milwaukee are to build a new Capitol for the State, so that the transfer will not cost the people anything in the way of increased taxation, and as the city of bricks is the business center of the commonwealth, it is claimed the removal would accommodate the people much better than they are served at the present location. When the bill was first introduced we regarded it simply as a joke, which Webb was playing on his Madison friends, but since we find a large number of persons in various parts of the State who really favor the change, and will vote for the proposition if they have a chance to do so, if the bill passes there is scarcely a doubt but that the people will give Milwaukee a chance to tax herself to the amount of a billion for the building of a new capital—a thing she will not do unless there is strong harmony existing among her property holders than we ever knew of before. It was certainly a great blunder originally in locating the seat of government so far from the geographical center of the State, and the growth and development of the northern and western part of our territory only makes this mistake more patent and unsatisfactory.

OUR EXPORTS

"Exports of Manufacturers from the United States and their Distribution, by Articles and Countries, 1890 to 1906," is the title of a monograph just issued by the Bureau of Statistics of the Department of Commerce and Labor. It shows that exports of manufactures from the United States now exceed 700 million dollars per annum and have doubled in value in a single decade. Not only has the exportation of manufactures doubled in a decade, but the share which products of the factory form of the total exports is steadily increasing. In 1890 manufactures formed but 15 per cent of the total exports of domestic products; in 1899 they formed 21 per cent, in 1900 35 per cent, and in 1906 40 per cent.

With the rapid increase of population in the United States, and therefore of the consumption of natural products, the quantity of food and raw materials remaining for distribution to other parts of the world has not increased proportionately; and with the development of manufacturing facilities and the trend of population to the manufacturing centers, production of manufactures has rapidly increased, and the surplus of these manufactures which may be spared for foreign markets has also increased. Foodstuffs, which in 1890 formed 42 per cent of the total exports of domestic products, formed in 1906 but 31 per cent of the total; articles in a crude condition for use in manufacturing, which in 1890 formed 36 per cent of the total, formed in 1906 but 29 per cent; while manufactures, as already indicated, increased their share in the exports from 21 per cent in 1890 to 40 per cent in 1906.

In the decade ending with 1905 exports of manufactures from the United States increased 193 per cent, while those from Germany increased 75 per cent, those from the United Kingdom 40 per cent, and those from France 25 per cent. This rapid increase in the exports of manufactures from the United States has brought her to the third rank in the list of the world's exporters of manufactures. The four greatest producers of manufactures for exportations and the value of manufactures exported by each of them in 1905 are as follows: The United Kingdom, 1,400 million dollars; Germany, 1,000 millions; the United States, 700 millions; and France, 500 millions. These figures, however, are approximate only, since the figures of the exports of the European countries are not yet at hand in sufficient detail to render possible an exact statement of the value of manufactures exported in that year.

The growth of the manufacturing industry in the United States has occurred chiefly in the last twenty-five years. Stated in round terms, the census figures of the gross value of manufactures in the United States are: For 1850, 1 billion dollars; 1860, 2 billions; 1870, 4 billions; 1880, 5 1/2 billions; 1890, 9 1/2 billions; 1900, 13 billions; 1905, 14 1/2 billions. The figures for 1905 being exclusive of neighborhood industries and hand trades included in previous years.

The increase in the production of manufactures in the United States, far in excess of home requirements, has forced our manufacturers to seek markets in other parts of the world for their surplus product. The result has been a rapid increase in the exportation of manufactures. The total value of manufactures exported from the United States has grown from less than \$ million dollars in 1820 to 23 million dollars in 1850, 48 1/2 millions in 1860, 70 millions in 1870, 122 millions in 1880, 179 millions in 1890, and 485 millions in 1900, since which time the annual total has not fallen below the 400 million-dollar line, while in the calendar year 1906 the total exceeded 700 million dollars. In the fiscal year 1906, the latest period for which detailed figures of the exports by countries are available, the exports of manufactures were valued at 636 million dollars, of which 318 millions worth went to Europe, 182 millions to North America, 64 1/2 millions to South America, and 78 1/2 millions to Asia, while the remainder was divided between Oceania and Africa.

That this growth has been especially marked in recent years is shown by the fact that the actual increase by decades in exports of manufactures has been as follows: During the decade ending with 1830, 1.3 millions; 1840, 5.8 millions; 1850, 7.8 millions; 1860, 25.2 millions; 1870, 21.6 millions; 1880, 51.8 millions; 1890, 57.2 millions; 1900, 305.9 millions; and during the six years ending with 1906, 201.5 millions. Thus the growth of exports of manufactures in the six years following 1890 was practically three times as great as that of the entire seventy years preceding that year.

THE LEGISLATURE

The legislature is hard at work grinding out the laws. Day by day they meet in session, gather in committee rooms and hold caucuses and the result will be a strange conglomeration of laws that will appear as the result of the present session. There are laws under consideration that would revolutionize the status of affairs and there are minor pieces of legislation that may slip through that will be far-reaching in their effect. The question what the legislature plans to do next is one which is bothering many of the industries of the state. Too much radical, paternal legislation will do to Wisconsin what has been done to Iowa and present smoking factories may soon be still as the grave with only caretakers to watch after the property.

WHAT'S THE MATTER?

Janesville does not forge ahead as fast as its neighboring municipalities and people are prone to lay the blame to one cause or another. In the aggregate Janesville is today doing much business as many of the rivaling cities, but in some way the population does not increase as fast, the industries do not multiply and the business itself is not growing larger. The question is, "What is the matter with Janesville?" The real trouble lies in the lack of concerted action on the part of the citizens, the lack of support that the present local industries receive, the belittling of the home town in the exaltation of the neighboring community. If every citizen would put themselves at the wheel, would work in unison and not draw back on the traces when a bit of hard climbing comes, Janesville would forge ahead with a speed that would astonish the grumblers. Conservatism is all right, but too much will kill any community.

This spring weather is sure not to last. Remember that March came, in like a lamb and usually goes out like a lion.

Milwaukee is struggling along just now with no grand jury trials to fill the vacuum and nothing but Sherbie Becker to bring it into the limelight.

"I'LL NOT TELL IF THEY KEEP ME HERE SIX MONTHS"

So Said the Tramp, James Ryan, to Supposed Suspect Lodged in Adjoining Cell at Lock-up.

City Marshal Appleby is still convinced that the hobo giving his name as James Ryan, who was picked up near Anderson's Crossing after the shooting which resulted seriously for Detective John Cowan last Thursday evening, knows more about the affair than he has divulged. Officer Mason put a drunk in the cell adjoining the other evening and said to him, as he looked the door, "You'll tell something about that derail switch business before we get through with you." Then he walked away and tipped back in time to hear the hobo say: "I'm in for that too, but I won't tell them anything about it if they keep me here twelve months."

GEESE AND DUCKS WERE PLENTIFUL AT KOSHKONONG

And Hunters Were Also in Evidence Yesterday—Flocks of Blue-bills and Mallards. George McKoy, who was at Lake Koshkonong yesterday, says that the wild geese and the bluebills and mallards were unusually plentiful. The closed season for geese is from April 1 to Sept. 1 and hunters who had anticipated the arrival of these birds had some excellent shooting. Whether they yielded to temptation and took unlawful shots at the ducks is a matter of conjecture.

Notice. A meeting of the republican city committee and the candidates for office on the republican ticket will be held at the offices of Pethers, Jerris & Mount on Monday evening, March 25, 1907, at 7:30 o'clock. M. O. MOUAT, Chairman.

Sugar Beet Contracts Being Signed Rapidly Now.

Over 1000 acres of sugar beets were signed up by the Rock County Sugar company the past week. This is the largest amount of acreage ever signed in one week in the history of the factory.

A large amount of acreage is being contracted in Illinois this year, where the company has about twenty agencies. Agriculturalist Myers says that at the present rate the full acreage will be contracted within three weeks.

Francis Patrick Keeter

Francis Patrick Keeter died at the home of his parents, Mr. and Mrs. George Keeter, at half-past two o'clock this morning. The boy was seven years of age and his demise will be deeply mourned by the bereaved relatives and many friends. The funeral will be held from St. Mary's church at nine o'clock Wednesday morning.

Samuel L. Spoon

The mortal remains of the late Samuel L. Spoon were tenderly laid at rest in the Grove cemetery, several miles west of the city, yesterday afternoon. The funeral was held at half-past one o'clock from the home, 107 Washington street, Rev. R. C. Demison officiating and at the grave Rev. Mr. Clapper of Footville conducted the services. The pallbearers were three brothers, Solomon Spoon, J. P. Spoon, and George Spoon, and three nephews, Frank A. Spoon, Solomon Strang and George

"Same Old Story"

A patient recently consulted Dr. Richards about needed family work. Had been paying \$10 each for gold crowns and was tired of the burden. Said had been doing so for social acquaintanceship and friendship sake, but couldn't see the use any more of paying twice as much for work as was necessary.

This is the way people look at it. When they think.

And the time most people think is when the bill is presented for payment. You may have the very best dental work obtainable in the city for \$5 a tooth and you may pay \$10 for the very same if you go blindly along. It's all in.

Where you go for your dentistry. Will it not pay you to choose the right dentist before you begin the work?

HEDDLES DECIDES TO RUN AS REPUBLICAN

Louis Skavlem Declines Proffered Nomination on Democratic Ticket—Candidates Meet Tonight.

In obedience to the law which requires a candidate named on two or more tickets at the primary to designate the party under which his name shall appear on the ballot, Stewart B. Heddles has filed his election to have his name placed in the republican column. Louis Skavlem has filed his declaration of the nomination for city clerk on the democratic ticket. The republican city committee and candidates for office will hold a meeting at the office of Fethers, Jeffris & Monat this evening, to lay their plans for the campaign. The democratic city committee met this afternoon and placed Frank L. Smith in nomination for city clerk but filled no other office.

PAUL COLVIN HOME WAS BURGLARIZED

During the Absence of the Family Saturday Evening—Prowler Took Pair of Earrings.

During the absence of Paul Colvin and his family from their residence on North First street, near St. Mary's church, Saturday evening, a burglar gained entrance by prying up one of the rear windows and ransacked the home. A pair of small diamond earrings were found to be missing when Mr. Colvin reached home and made an inspection of the premises. Officer Fanning answered the summons and arrested two strangers who were loitering in the vicinity. On examination of their clothes nothing was found which implicated them but their presence in the locality has not as yet been satisfactorily explained.

LOCAL PARAGRAPHS.

Auction at Norcross Home: There was spirited bidding by a large crowd, composed mostly of ladies, at the auction sale conducted at Capt. Philip Norcross's home in Forest Park on Saturday. A number of fine pieces of mahogany furniture were sold at good prices by the persuasive W. Dooley, who says that the ladies were the best lot of bidders he ever had.

Wedded Saturday Night: LaVerne Nelson and Mr. Adeline Louise Luebke, both of this city, were wedded in Justice Charles Reeder's office Saturday evening. The ceremony was witnessed by relatives of the groom. The bride is a daughter of Mr. and Mrs. Fred Luebke and the groom is a son of Mr. and Mrs. L. M. Nelson. After a short honeymoon trip the happy couple will make their home in this city.

Boat Houses Plundered: Walter Taylor discovered upon visiting his boathouse yesterday that thieves had broken into it and carried away some locks and brass fittings. The Lowell and Kenyon boathouses have also been visited and plundered during the past fortnight.

Locates at Mineral Point: John O. Duggins, who has presided over the first chair in W. E. Hough's barber shop for several years past, departs today for Mineral Point, where he has decided to locate. His many friends will wish him success in the new field of endeavor.

Searching for Her Parents: Yesterday afternoon a little ten-year-old girl, giving her last name as Hansen, called upon the police to assist her in searching for her parents, who, she said, had moved to Janesville from Rockford and left her in the care of a sister in Beloit. The father is a piano dealer. Officers were unable to locate the people and the child was sent back to Beloit on an interurban car.

Two Interesting Sermons: Rev. A. L. Tull of Appleton delivered two interesting sermons at the Cargill Memorial M. E. church yesterday. Rev. J. H. Tippet was in Delavan, participating in an Epworth League rally.

Department Called: By the breaking of a pipe in the automatic sprinkler system at the plant of the Janesville Machine company the fire department was called out at 12:50 o'clock this afternoon.

Divorce Granted: Judge Grimm was in Janesville for a short time this morning, on his way to Monroe where he is to hold court this week. He granted a decree of divorce to Mrs. Martha A. Patchen of this city who brought an action on grounds of desertion against Nathan A. Patchen, who lives in Albany with a son.

Busy Day For Dist. Atty.: This has been a busy day for District Attorney J. L. Fisher. In the Beloit municipal

court this morning he prosecuted the cases against Anthony Dixon, held under \$1,500 bail; against Voorhees; and against Donahoe, held under \$1,000 bonds of the charge of taking indecent liberties with his child. In Janesville this afternoon he attended to the cases against W. J. DeJongh and Elizabeth Mohe.

PETE MCCANN FINED FOR SPEARING FISH

Game Warden Drafiel Gave Chase to a Party of Three Law-Breakers Near Indian Ford.

Deputy Game Warden Peter Drafiel gave chase yesterday to a party of three fishermen who had landed a big pickerel with a spear, near Indian Ford. When they at first refused to halt, he drew a gun on them and this quickly persuaded them to change tactics and surrender. In municipal court this morning a man giving his name as Peter McCann of the town of Fulton, paid a fine of \$25 and \$4.80 costs for infraction of the game laws.

QUIET SERVICES AT THE CONG. CHURCH

Four Evening Meetings Planned for Observation of Holy Week—First Tomorrow.

This being holy week there will be special services at the Congregational church. The meetings are to be given over to quiet worship and everybody is welcome. The hours and topics are as follows: Tuesday, March 26, 7:30 p. m.—The Springs from which flow Peace and Strength; Wednesday, March 27, 7:30 p. m.—The Daily Practice of the Christian Life; Thursday, March 28, 7:30 p. m.—The Spiritual Importance of our Treatment of Others; Friday, March 29, 4:30 p. m.—The Place of Sacrifice in the World.

WE KNOW that we have a good bank. We know that that our capital and surplus are ample for the amount of business we are doing. We know that we at all times keep as large an amount of cash on hand as the most careful bankers consider necessary. We know that our securities are good, that they are for short times, come due at frequent intervals and can be easily turned into cash. We know that our management is conservative and capable. We know all these things but we want you to know them and to join the increasing number of those who like our way of doing business.

RESOURCES \$965,000

To the Electors of the City of Janesville, Wisconsin:

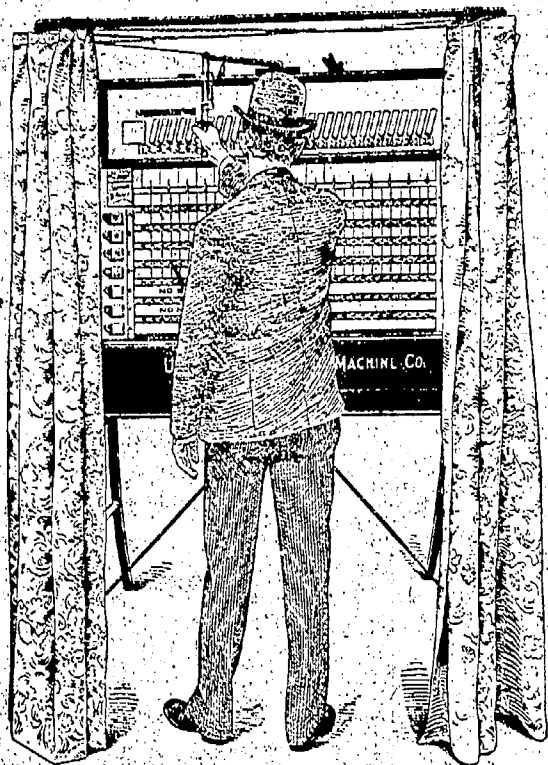

Office of City Clerk, March 25, 1907

Information to Voters in Regard to the Election to Be Held on April 2, 1907.

DIRECTIONS FOR VOTING ON THE VOTING MACHINE: 1st. Close the curtain. 2d. Pull the Yellow Lever having on it the names of your political party over to the Right until the Bell rings. (This will turn down the Pointers over the names of the candidates in your party.) 3d. If you wish to vote a Straight Party Ticket, leave the Pointers as they are (Down, in their voting position). But if you wish to "split," or "scratch," your ticket, turn up the Pointer from over the name of the candidate in your own party that you wish to cut out, and then turn Down the Pointer over the name of the candidate you wish to vote for that office, and leave it there. 4th. Vote for the Judges in columns No. 15 and higher, by turning down a Pointer over each name you wish to vote for, and leaving it there. (As these are non-partisan officers, they must each be voted for individually, as their Pointers are not turned down by the pulling of the Party Levers.) 5th. Open the Curtain. **NOTE**—unless you are sure that you know just how to operate the machine, it would be well for you to practice on some machine before election day.

HOW TO VOTE ON THE U. S. STANDARD VOTING MACHINE.

Move the Red Handle of the Curtain Lever to the right as far as it will go. This will close the Curtain around you, and unlock the machine for voting.

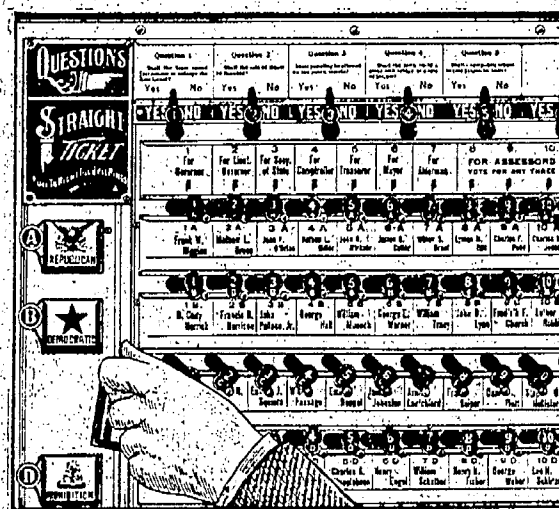

VOTER ABOUT TO CLOSE THE CURTAIN.

HOW TO VOTE A STRAIGHT TICKET.

Having closed the Curtain—Pull the Party Lever bearing the name or emblem of your Party over to the right UNTIL THE BELL RINGS, and then let it go back. This turns down to a voting position all of the Pointers of the candidates of your party.

The ringing of the bell signifies that the Party Lever has been pulled far enough to unlock the Curtain Lever and engage the registering mechanism.

VOTER PULLING OVER PARTY LEVER.

The turned down Pointers indicate the names of the candidates for whom the vote will be cast.

Leave the Pointers as they are (down in a voting position).

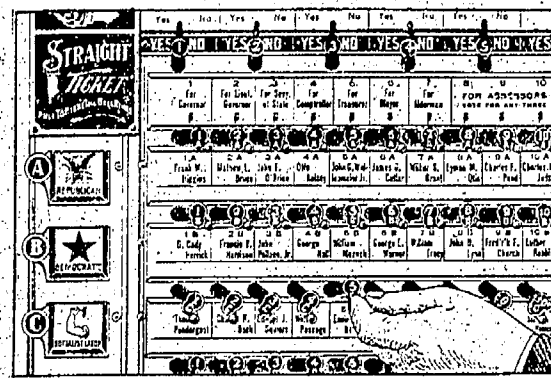

Move the Red Handle of the Curtain Lever to the left as far as it will go.

This will count your vote, open the Curtain, and set the machine for the next voter.

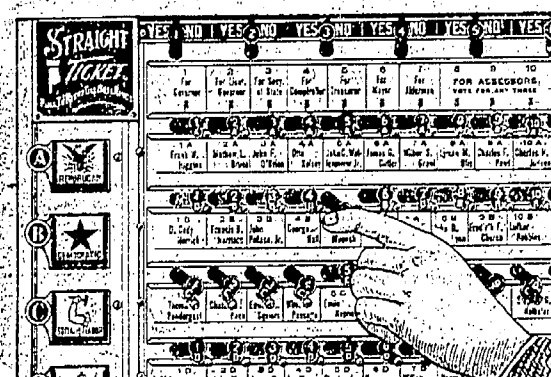

HOW TO VOTE A SPLIT TICKET.

Having closed the Curtain—Pull the Party Lever bearing the name or emblem of your Party over to the right UNTIL THE BELL RINGS, and then let it go back. This turns down to a voting position all of the Pointers of the candidates of your party.

Turn back (up) the Pointer from over the name of the candidate you wish to cut. See illustration below.

And then turn down a Pointer over the name of the candidate you wish to vote for for that office. See illustration below.

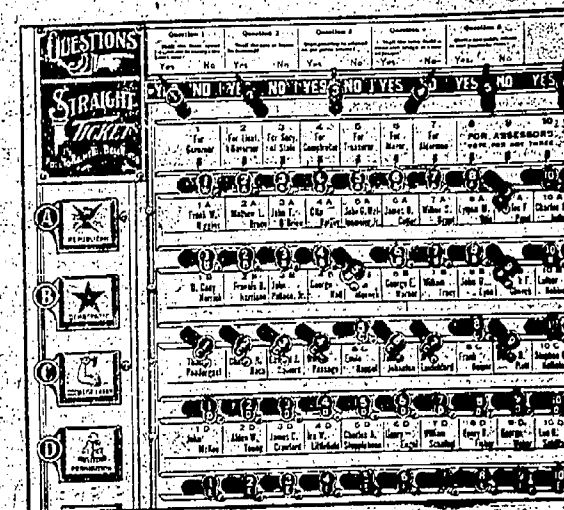

Be sure to complete each Split before making another.

For an office to which two or more candidates are to be elected, the required number of candidates can be voted for, and no more, regardless of position.

After the vote is arranged, move the Red Handle of the Curtain Lever to the left as far as it will go. This will count one vote for every candidate that has a Pointer left down over his name.

HOW TO VOTE ON QUESTIONS.

To vote Yes, turn the Question Pointer to the word Yes, and leave it there. To vote No, turn the Question Pointer to the word No, and leave it there.

THE ABOVE CUT SHOWS:

That the voter, has voted Party Lever "C" and then—Split his vote for Treasurer, on Column 5.

That he has voted for Assessors, voting for three on Column 9 (for which office he is permitted to vote for any three candidates on either of the Columns, 8, 9, and 10).

That he has voted "Yes" on Questions 1 and 2.

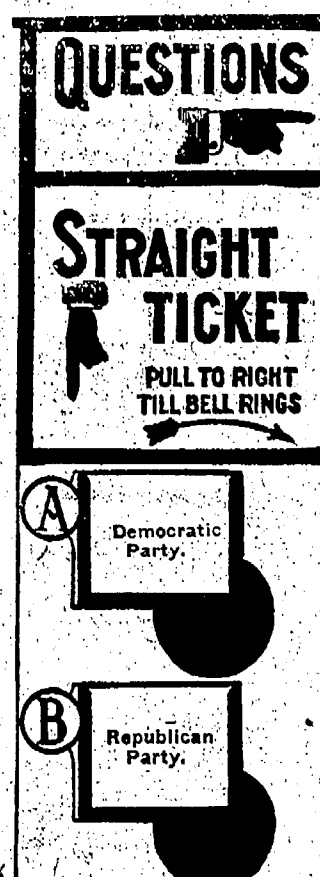

That he has not voted on Questions 3 and 5.

That he has voted "No" on Question 4.

If the voter desires, he may make any further changes while the Curtain remains closed, as the vote is not registered until the Curtain is opened.

The Pointers must be left down over the names to be voted for. If the voter turns them back the vote will not be counted, as the opening of the Curtain turns back the Pointers and counts the vote.

SHOWS ADVANCE OF JAPAN.

Crude Methods of Mining Discarded for Most Up-to-Date Ideas.

Near the center of the beautiful mountain island of Shikoku, and standing rather more than 4,000 feet above the waters of the inland sea of Japan, there is a peak of sulphide copper ore which has become a center of industry popularly known throughout the island empire as Sumitomo Besshi. Here, for centuries before the industrial development of the new world was begun by white men, the Japanese were mining in a crude way and carrying the ore on their backs in small wicker baskets (such as are still used for coaling ships at Nagasaki) down the 12 miles of arduous mountain paths to the smelters on the shore of the inland sea.

To-day the marvelous little workers are still at the pursuit of burrowing out the mountain, but a vast change has come over the methods of working, says a writer in the Engineering Magazine. Where in the ancient times only a paltry few burdened baskets of ore were each day borne over the difficult trails, an output of 9,000 tons daily now glides down a great cableway, and is carried from the foot of the slope by railroad to the sea. In short, there is established at Sumitomo Besshi, a modern mining plant, modern in all essential details of engineering construction, and the wonder of the transformation is that it has been wrought without the direct assistance of a single foreign engineer.

The Great Restorative Non-Alcoholic Tonic

of the day, made entirely of native medicinal roots and without a drop of alcohol in its composition, is known as
**DR. PIERCE'S
GOLDEN MEDICAL DISCOVERY.**

There are no secrets about its composition -- all its ingredients being printed on the bottle-wrappers.

The "Golden Medical Discovery" not only builds up the strength of the feeble, debilitated, languid, nervous and easily fatigued, whether young or aged, but it enriches and purifies the blood, thus making the improvement lasting.

It corrects and overcomes indigestion, dyspepsia, biliousness, torpid liver, chronic diarrhea and kindred derangements of the stomach, liver and bowels.

Bronchial, throat and laryngeal affections, attended with hoarseness, persistent cough, and all manner of catarrhal affections are cured by the "Golden Medical Discovery."

In Chronic Nasal Catarrh, it is well to cleanse the nasal passages out freely with Dr. Sage's Catarrh Remedy fluid while taking the "Golden Medical Discovery" as a constitutional treatment. Old obstinate cases of catarrh yield to this thorough course of treatment.

Through enriching and purifying the blood, the "Discovery" cures scrofulous affections, also blotches, pimples, eruptions, and other ugly affections of the skin. Old, open, running sores, or ulcers, are healed by taking the "Golden Medical Discovery" internally and applying Dr. Pierce's All-Healing Salve as a local dressing. The Salve can be had of druggists, or will be sent

by return mail on receipt of 50 cents in stamps. Address: Doctor Pierce as below for it.

In short "Golden Medical Discovery" regulates, purifies and invigorates the whole system and thus cures a very large range of diseases. The reason why it cures such a varied list of diseases is made clear in a little booklet of extracts from the leading medical authorities, compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and which he will be pleased to send post-paid and entirely free to any who send him their names and addresses.

You can't afford to accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is just as good. They are the original Little Liver Pills first put up by Dr. Pierce over 40 years ago. Much imitated, but never equalled. They are tiny sugar-coated granules -- easy to take as candy.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 one-cent stamps (to cover cost of mailing for paper covered, or 31 stamps for both-bound copy. Address Dr. Pierce as above.

STUDENTS DIE IN WRECK

SIX KILLED IN COLLISION AT LOS ANGELES, CAL.

Seventeen injured, Several Fatally—Santa Fe Limited, Runs Into Special From Intercollegiate Meet.

Los Angeles, Cal., March 25.—A special train on the Atchafalaya, Topoka & Santa Fe railway, carrying scores of students home from an intercollegiate field meet at Claremont, collided head-on with the out-bound limited, No. 2, on the same road while both trains were moving at a rapid rate, within the city limits here Saturday night. Six persons were killed and 17 injured, several of them fatally.

Both engines, one of the baggage cars on the Overland Limited and the smoker on the special were demolished. The crash was terrific and was heard many blocks away from the scene.

The known dead are: C. G. Franklin, student at University of Southern California; A. H. Edwards, Maj. C. Gall and Fred Hodgson, the three latter students at Occidental College. Workers at the wreck stated Sunday

they were convinced there were at least two additional bodies under the wreckage of the smoker.

Responsibility for the collision will not be officially determined until after the coroner's inquest on Tuesday. The railroad officials indicate that the accident was due to disobedience of orders on the part of the engineer, Kelly, of the limited train. Kelly has admitted that he received written orders to stop his train at a tower 200 yards before reaching the scene of the collision. The engineer stated that he had not had time to read his orders before pulling out of the station.

Many illnesses come from impure blood. Can't have pure blood with faulty digestion, lax liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels, and liver, and purifies the blood.

Itching, torturing skin eruptions, disfigure, annoy, drive one wild. Doan's Ointment brings quick relief and lasting cures. Fifty cents at any drug store.

THE PLUM TREE

BY DAVID GRAHAM PHILLIPS

Copyrighted 1906 by BOBBY-MERRILL COMPANY

Author of THE COST OF THE DELUGE, ETC.

"He did not take up my offer. 'You have already had 13 matters attended to this winter,' I pursued. 'The one that can be done—Really, Mr. Roebuck, the whole state knows that the trustees of the Wakegarden Christian University are your dummies. It would be insanity for the party to turn over a hundred thousand acres of public land gratis to them, so that they can presently sell it to you for a song.'"

He reddened. "Newspaper scandal!" he blustered, but changed the subject as soon as he had shown me, and resolutely himself that his motives were pure!

I saw that Burbank's last winter was to be crucial. My clients were clamorous, and were hinting at all sorts of dire doings if they were not treated better. Roebuck was questioning in the most malignantly friendly manner, "whether, after all, Harvey, the combine isn't a mistake, and the old way wasn't the best." On the other hand Burbank was becoming restless. He had so cleverly taken advantage of the chances of a popular thing, which I had either made for him or pointed out to him, that he had become something of a national figure. When he got 81 votes for the presidential nomination in our party's national convention his brain was dizzy. Now he was in a tremor lest my clients should demand of him things that would diminish or destroy this sapling popularity which, in his dreams, he already saw grown into a mighty tree obscuring the national heavens.

I gave many and many an anxious hour to anxious thought and careful planning; that summer and fall. It was only a few days before Doc Woodruff appeared at Fredonia with the winter's legislative programme that I saw my way straight to what I hoped was broad day. The programme he brought was so outrageous that it was funny. There was nothing in it for the Ramsay interests, but each of the other ton had apparently exhausted the ingenuity of its lawyers in concocting demands that would have wrecked forever the party granting them.

"Our friends are modest," said I. "They've gone clean crazy," replied Woodruff. "And if you could have heard them talk! It's impossible to make them see that anybody has any rights but themselves."

"Well, let me have the details," said I. "Explain every item on this list; tell me just what it means, and just how the law is proposed to disguise it so the people won't catch on."

When he had finished, I divided the demands into three classes—the impossible, the possible, and the practicable. "Strike out all the impossible," I directed. "Cut down the possible to the ten that are least outrageous. Those ten and the practicable must be passed."

"He read of the ten which were beyond the limits of prudence, but not mob-and-hangings matters. 'We can pass them, of course,' was his comment. 'We could pass a law ordering the state house burned, but—'

"Precisely," said I. "I think the consequences will be interesting. I cross-marked the five worst of the ten possibilities. 'Save those until the last weeks of the session.'"

Early in the session Woodruff began to push the five least bad of the bad measures on to the calendar of the legislature, one by one. When the third was introduced, Burbank took the limited for Washington. He arrived in time to join my wife and my little daughter Frances and me at breakfast. He was so white and sunken-eyed and his hands were so unsteady that Frances tried in vain to take her solemn, wondering, pitying gaze from his face. As soon as my study door closed behind us, he burst out, striding up and down.

"I don't know what to think, Say-

er!" he cried. "I don't know what to think! The demands of these corporations have been growing, growing, growing! And now—You have seen the calendar?"

"Yes," said I. "Some of the bills are pretty stiff, aren't they? But the boys tell me they're for our best friends, and that they're all necessary."

"No doubt, no doubt," he replied; "but it will be impossible to reconcile the people. Suddenly he turned on me, his eyes full of fear and suspicion. 'Have you laid a plot to ruin me, Sayler? It certainly looks that way. Have you a secret ambition for the presidency?'"

"Don't talk rubbish, James," I interrupted. "Those few meaningless votes in the national convention had added his common sense. 'Sit down—calm yourself—tell me all about it.'"

He seated himself and ran his fingers through his wet hair that was being so rapidly thinned and whitened by the struggles and anxieties of his ambition. "My God!" he cried, out, "how I am punished! When I started in my public career, I looked forward and saw just this time—when I should be the helpless tool in the hands of the power, I sold myself to Governor! He almost shouted the word, rising and pacing the floor again. 'Governor!'—and he laughed in wild derision."

I watched him, fascinated. I, too, at the outset of my career, had looked forward, and had seen the same peril; but I had avoided it. Wretched figure that he was—what more wretched, more pitiable, than a man groveling and moaning in the mire of his own self-contempt? "Governor!" I said to myself, as I saw awful thoughts flitting like demons of despair across his face, and I shuddered, and pitied, and rejoiced—shuddered at the narrowness of my own escape, pitied the men who seemed myself as I might have been; and rejoiced that I had had my mother with me and in me to impel me to another course.

"Come, come, Burbank," said I, "you're not yourself; you've lost sleep!"

"Sleep!" he interrupted. "I have not closed my eyes since I read those cursed bills."

"Tell me what you want done," was my suggestion. "I'll help in any way I can—any way that's practicable."

"Oh, I understand your position, Sayler," he answered, when he had got control of himself again, "but I see plainly that the time has come when the power that rules me—that rules us both—has decided to use me to my own destruction. If I refuse to do these things, it will destroy me—and a hundred are eager to come forward and take my place. If I do these things the people will destroy me; and neither is that of the smallest importance to our master."

His phrases, "the power that rules us both," and "our master," jarred on me. So far as he knew, indeed, so far as "our master" knew, were not he and I in the same class? But that was no time for personal vanity. All I said was: "The bills must go through. This is one of those crises that test a man's loyalty to the party."

"For the good of the party!" he muttered with a bitter sneer. "Crime upon crime—yes, crime, I say—that the party may keep the favor of the powers! And to what end? To what good? Why, that the party may continue in control—so may be of further use to its rulers." He rested his elbows on the table and held his face between his hands. He looked terribly old, and weary beyond the power ever to be rested again. "I stand with the party—what am I, what am I without it?" he went on in a dull voice. "The people may forget, but I, if I offend the master, he never forgives or forgets. I'll sign the bills, Sayler—if they come to me as party measures."

Burbank had responded to the test. A baser man would have acted as scores of governors, mayors, and judges have acted in the same situation—would have accepted popular ruin and would have compelled the powers to make him rich in compensation. A braver man would have defied it and the powers, would have appealed to the people—with one chance of winning, out against ten thousand

GOLFERS WERE OUT
IN FORCE YESTERDAY

Fifteen or Twenty of Them Went Around the Course For the First Time This Season.

Sunshine and balmy weather acted quickly on the golfers and early yesterday morning the cry of "Fore!" from over a dozen lips awoke the slumbering echoes in the Mississippi hills. About twenty-five people visited the links during the day and several played from morn to twilight.

Police Recovered Lost Pin: When a pair of trousers which had been taken to a pressing establishment were returned to E. F. Alt of Chicago, a traveling man, yesterday, the owner failed to find a dragon pin set with a diamond and worth about \$35, which he remembered putting in the watch pocket. The police made an investigation and discovered that the proprietor of the pressing establishment had passed the piece of jewelry on to a third party, the plan being to secure, if possible, a reward. The two young men were placed under arrest but the traveling man, after recovering his property, was not anxious to prosecute and the case will probably be dropped.

Sues Phonograph Co.: In Judge Reeder's court this afternoon the action brought by Landlord E. A. Kemmerer of the Park Hotel to recover \$82 from the Columbia Phonograph Co. The sum is claimed to be due for a board and lodging debt incurred by W. J. DeLongh, while acting as the company's agent.
